CUT OFF FROM HOME.**THE SITUATION AT MEMPHIS YESTERDAY.**

The Epidemic Perceptibly on the Decline.—The Board of Health Issues a Warning to Refugees.

MEMPHIS, September 20.—Two new cases were reported this morning. Mark M. Orman and Mrs. D. F. Jackson, wife of the health officer. The weather has again changed. A cool wind from the north is blowing.

MEMPHIS, September 20.—Noon.—One additional new case has been reported, John Farrell at City Hospital. Two deaths have occurred, Thomas and Henry Harrison.

The following warning to absentees will be published this afternoon: "Frequent applications being made to the Board of Health and superintendent of quarantine by absentees to return, we deem it best to make this public announcement. That though the number of new cases and deaths are small and perceptible on the decline, it would not be safe for those persons not having had the disease to return yet. A comparatively small number of new cases are developing due to the fact that there are few visitors to the people here. Those who have had the disease and wish to return will be permitted to do so and will be furnished certificates to that effect on application to the superintendent of quarantine. None others will be permitted to enter Memphis, or to obtain a certificate issued by the Board of Health that they are there. There is no longer any danger from infection, which will be done at the earliest possible day." Signed: G. B. Thornton, M. D., President of the Board of Health, John Johnson, Superintendent of Quarantine.

WASHINGTON, Sept. 20.—Frank L. Davis, President of the First National Bank of Memphis, received the following dispatch from Memphis: "We want one hundred thousand dollars for two thousand three hundred people in the camps can't tell the number, where to send them we are not told them. Can not do so unless the Government assents. Call on Dr. Billings of the National Board of Health, and General Key to accompany you to see the Honorable Secretary of War. We have but little money, no provisions and twenty-three hundred people now in camps, while we are honor bound to feed them." Signed, D. F. Porter, John Johnson, committee.

Mr. Davis, in compliance with a telegram, called upon various members of the cabinet. The Attorney-General referred him to the Board of Health, saying that under his recent opinion the Secretary of War had no authority to furnish supplies. The officials of the Board of Health said the law gave them authority to disburse money to extend to the spread of fever from State to State. If, however, the people now in the city would go into camp, the board will supply rations and tents for a reasonable time, but unless relief is furnished to the committee from some source great destitution and suffering will prevail.

The Latest.

MEMPHIS, September 20.—Seven new cases in all, six white and one colored, reported to the Board of Health to-day. Among those reported this afternoon, is Horace Graham, Henry Good, George Gillespie. No additional deaths were reported. Passages with Col. Prestige, was stricken to-day, also Fred Harpman, of Harpman & Bros., tobaccoconists. Their names will be reported to the Board of Health tomorrow. Miss Louise Lucearia resides two miles from the street house, in the fever camp.

The total number of new cases officially reported for the week is eighty whites and forty-eight colored. Total to date, one thousand two hundred and sixteen. Total number of deaths from yellow fever in the city for the week, thirteen. The total number of cases, dried and forty-six. Donations to the Howards to-day aggregate \$222. They have one hundred and thirty-five nurses in duty attending ninety-three whites and thirty-two colored families. The thermometer has ranged between 54° and 72°.

Forces.

London, September 20.—There is news from Constantinople of another fight between the militia and Mussulmans in Philippopolis. Ten persons were killed and ten wounded.

Berlin dispatches say the Archbishop of Posed has been condemned by the Prussian tribunal to a fine of twenty thousand francs for having been in prison for unlawfully excommunicating a Catholic priest who had obeyed the May laws.

Bell's Life in London says: "A New Castle gentleman states that he is author of the poem in the *Courtauld* against Elliott or any man in England, to row on the Tyne or Thames or in American waters."

The Times says: "News concerning the Egyptian cotton crops continues good, and a large crop is expected. Samples so far have been of good quality."

Indian dispatches report the Africoids have signed a fresh agreement to insure safety of roads through the Khyber, Khoat and Michail passes.

Cotton-Brokers' Circular.

LIVERPOOL, September 19.—This week's circular of the cotton brokers says cotton was in a comparatively limited demand and with some pressure to sell. Quotations are generally reduced. American was in moderate demand and prices are generally 3-16 d. lower than last week, and was still at unchanged prices. Futures were dull and prices gradually declined, especially for near positions, which are 3-16 d. lower. More distant positions were less freely offered and prices are only 1-16 d. lower.

Heavy Failure.

CHARLESSTON, September 20.—There is no authentic statement yet of the liabilities of James Adger & Company. They are currently reported to be nearly \$2,000,000. The People's Bank, which is one of the largest in the state, is failing to pay its debts and will wind up. This is a State bank distinct from the People's National Bank, which is not affected.

A Crazy Man Hanged.

INDIANAPOLIS, September 19.—Louis Guetig was hanged a little after 12 o'clock to-day, for the murder of Mr. M. J. Moore, a year ago, in the presence of about 150 persons, including the officials here, the sheriffs of other counties, and press representatives. Guetig's cousin still maintained that he was crazy.

Governor Colquitt Exonerated.

ATLANTA, Ga., September 20.—The House of Representatives to-day almost unanimously voted down the resolution condemning Governor Colquitt for alleged corruption in regard to the office of principal keeper of the peni-

tentiary, and passed a resolution asking the Governor to examine into the conduct of that officer and to take such action as he may deem proper.

General Grant's Reception.

SAN FRANCISCO, September 19.—The City of Tokio has been expected hourly during the day, but nothing has been heard from her. The weather is very foggy. The feeling of expectancy has greatly increased and the effect of almost paralyzing general anxiety, and the streets have been crowded with throngs. There has been a large influx of visitors, official and unoffical, during the day, including number of military, diplomatic, mercantile, representative of the principal cities and various organizations. Many additions have been made to the decorations, and the general appearance of the streets on the proposed line of march is brilliant and picturesque. There is little doubt that the march will arrive outside during the night, as her average time of passage is about up.

Dispatches from San Francisco describe the arrangement for the reception of ex-President Grant as magnificent. All the principal streets are profusely decorated with flags and bunting, and nearly every business block upon the main thoroughfares will be illuminated upon the arrival of the distinguished guest. Even the Chinese houses are decorated, the Stars and Stripes and flag of China being thrown out together. In many places flags are flying from the gables extending across the street, and on Montgomery street, fronting Market, along which the procession will pass, a magnificent triumphal arch has been erected. Upon two large columns, one on each side of the arch, are suspended a wagon and a painting about the flag, high representing "War." The other column represents "Peace." From each side of these figures extend large flags, the poles resting on an upward angle of about 45°. Back of the figure in the center of a column is a stand bearing a banner inscribed "Welcome!" Corresponding with this on the other side is the word "Grant." The letters making up these words are three feet high and made of natural roses on a ground of light blue. At the top of one of the columns from which the arch spans a wagon-car painting about the flag, high representing "War." The other column represents "Peace." From each side of these figures extend large flags, the poles resting on an upward angle of about 45°.

On either side of the arch is the inscription "Welcome!" Corresponding with this on the other side is the word "Grant." The letters making up these words are three feet high and made of natural roses on a ground of light blue. At the top of one of the columns from which the arch spans a wagon-car painting about the flag, high representing "War." The other column represents "Peace." From each side of these figures extend large flags, the poles resting on an upward angle of about 45°.

On either side of the arch is the inscription "Welcome!" Corresponding with this on the other side is the word "Grant." The letters making up these words are three feet high and made of natural roses on a ground of light blue. At the top of one of the columns from which the arch spans a wagon-car painting about the flag, high representing "War." The other column represents "Peace." From each side of these figures extend large flags, the poles resting on an upward angle of about 45°.

DAILY NEWS

GEO. C. JORDAN, Editor and Prop'r.

SUNDAY, SEPTEMBER - 21, 1879.

THE New York Star is boiling over with indignation at the World's course in supporting Governor Robinson. The effect, it might be well to state, is so slight that it is not readily perceived.

While President Hayes was speaking of "a dangerous practical denial to the colored citizens," was referring to the colored Republican candidate in Hamilton county, O., that Deacon Richard Smith is so violently opposing?

"The lawlessness which to-day assails the rights of the colored people will be heard of to-morrow."

President Hayes' Speech.

That's so; Corbin found it out when the Ohio teetotalers blew up their tavern Sunday night, nearly killing a whole family in the attempt.

It is whispered in newspaper circles that Whitelaw Reid will soon be retired from the position of editor-in-chief of the New York Tribune, Louis J. Jennings, formerly editor of the Times, and at present London correspondent of the World, taking the place. The reason assigned is that the managers have got financially tired of Mr. Reid's idea of running an ideal newspaper. Hard on Whitelaw.

THE Charleston News and Courier has this to say while discussing South Carolina's needs for a State agricultural department:

A Agricultural Department of the right kind in South Carolina could accomplish much benefit for the State. But it will not do to create the office of Commissioner of Agriculture, elect the officer, assign him a room in the State-house, and then let him go to work in a single one or two stories, and call that an Agricultural Department. While some good might be accomplished, even by so inchoate an establishment as that, yet it would necessarily fall far short of the great ends to be obtained by an Agricultural Department worthy of the name.

PRESIDENT HAYES' speech at Youngstown was remarkable for only two things: a stultification of the sentiments expressed by him in 1876, and thereby acknowledging that he did not possess sufficient backbone to carry out the experiment of reviving a party calculated to take the place of the old Whig party, and not fearing another attempt at secession. Of course, this is a campaign speech in the interest of Mr. Foster—no one understood it otherwise. This, we believe, is the first instance on record of a President of the United States taking the stump in behalf of a candidate for gubernatorial honors.

We are much surprised to note what we regard as the unreasoning injustice with which many of our State papers assail the Speakers of the two houses, the judges of the circuit court, the counsel engaged in the trial, and everybody else in anywise connected with the schol of bill and its fate, and responsible, so to say, for the present status of the question.—*Henderson Review.*

At the present time we do not remember of any paper having assailed the judges of the supreme court or the counsel engaged; more reasonable and the matter was purely a question of law and precedent. The only persons "assailed" were the "Speakers for their oversight." The editor of the Review has evidently seized upon a subject that he is not acquainted with to air a little law.

WHERE IS THE DANGER?

We publish so much of President Hayes' Youngstown address as relates to the Union politically. It can be safely classed as rather a tame production, the principal points having already been enunciated by men of vim and ability. He opens that portion relating to national affairs by asking, What was settled by the war? and then proceeds to answer it by quoting President Lincoln's Gettysburg address. "Mr. Lincoln held," he says, "that 'the United States is a nation and that its Government possesses ample power under the Constitution to maintain its authority and enforce its laws in every part of its territory'; and this is the only answer throughout the long address that is furnished. Mr. Lincoln enunciated this principle in the heat of the great civil war. Had he lived fifteen years longer he would undoubtedly have said: The Government possesses ample power under the Constitution to maintain its Constitutional authority and enforce its laws in every part of its territory."

And it is right here where the question of latter-day States rights comes in. The advocates of States' rights of to-day acknowledge the powers of the General Government as delegated to it under the Constitution by the different States, but at the same time they oppose centralization; and it may safely be assumed that the idea of destroying the autonomy of the States by a perversion of the Constitution was entirely foreign to President Lincoln's interpretation of that instrument, for he spoke of "that government of the people, by the people, and for the people," a sentiment directly opposed to the Stalwart plan of carrying on the Government. Centralization, it is true, will probably prove more a figure of speech than a reality, for while it may be used to array section against section in a political campaign, when it comes home to all the idea will be repudiated.

For months past we have heard from the North of the "new secession," the "solid South," and other heresies held by the people of the Southern States as against the amended Constitution. But if President Hayes' assertion means anything there is not much to fear on this account. He says:

Miss Annie, Lessie and Mattie Southgate, and Minnie Moore, and Lula Freeland, will all leave to-day for one of Virginia's best schools, and although we didn't know it, young ladies leaving our North Carolina schools, we bid them God speed and hope they will all get first honors.

Several Cincinnati excursionists have recently reported a good time. By the way, the house opposite the Lawver's, handsome brick warehouse received a handsome prize at the Cincinnati exhibition for a handsome package of tobacco.

TOBACCONIST.
the creeds and platforms of the leading political parties are in favor of the faithful acceptance of the new Constitutional amendments, what becomes of the Stalwart statement that the South is paving the way for a new secession and is preparing for another civil war? We fail to see this much-talked of danger.

So far as the color line question is concerned, it is fast correcting itself. It is unnecessary to state the old social conditions—they are changing daily, and if the colored people are left alone the next ten years will make a wonderful difference in their condition. It is all very true that now and then a gross wrong is perpetrated, but these instances are becoming more rare, and but a short time will elapse before they will be unheard of—and the sooner the better for the condition of the country as well as for common humanity.

If those vindictive Northern journals that show such an aggressive centralizing spirit would bend their energies to helping on the work of advancement, instead of breaking it down, it would be better for the people at large, black as well as white.

GOSSIP FOR THE LADIES.

To Young Inquiries.

"Gaze, oh! 'tis lovely, girlhood's lips and cheek.
Mantling with deep earnestness of thought,
Say what seemest thou in those fair, and weak,
And fragile things, as but for sunshine wrought?
Thou seest what earth must nurture for the sky—
What time must fashion for eternity."

"Hush! 'tis a holy scene, the quiet room.
Seems like a temple, while you faint lamp sheds
A calm and starry radiance through the gloom.
And the deep stillness, down on bright young heads, on all their clustering locks untouched by care, And like flowers are bent at night in prayer."

"Earth will forsake, oh! happy to have given
The unbroken heart's first fragrance unto heaven."

The most remarkable of recent opinions concerning divorce—by a woman, of course: "Divorce is all very well in its way, but I prefer widowhood—it's surer."

Here is a conundrum for *Puck*, which contains the wicked slander: "When a woman carefully slides out of bed in the middle of the night and by the pale light of the moon goes to her husband's pockets, why does she always take the small change and leave the bills?" Answer—Because she does not."

When people talk of women's claims and women's rights I think of the tournament of the four days. If the ladies had demanded more than the most of them would have made but sorry knights, whereas, remaining in the gallery, it was they who gave the prizes; and it was to win the need of praise from them that each knight did his best. There is something of the same kind even in most unchivalrous romances, *Arthur Helps*.

A New York paper tells a sad story of a girl of twenty—the youngest of a family of six daughters in that city—has just died from over-study. A year ago she graduated from Mt. Holyoke Seminary, where she had been three years. Leaving the institution she took up the study of history, physiology, astronomy, and history, and passed not long since, an excellent examination for the position of teacher in one of the public schools. But while directing the study of others, she still pursued her own, and took a painting in water-colors for her own pleasure. When the summer vacation began she went to Lake George to spend it with a sister, taking her books and paint with her. The tragic but not unnatural sequel is now recorded. The poor girl always came at last no longer perform her artistic function. The muscles refused to act, and the power of articulation left her, and she died in utter agony, the victim of a passion for work and study.

A Prolific Tree.

New Bern Democrat, 19th.

Yesterday were gathered from a pear tree, Dutchess Co., Longmeadow, growing in the garden of Mr. Wm. W. Ford, in this city: First, ripe fruit, a pear that would perhaps weigh one pound; then the second crop, a pear the size of a turkey egg; next the third crop, a pear the size of a partridge egg; again, the fourth crop, fruit perfectly formed and growing thrifty in clusters; lastly, the fifth crop, fruit forming with the blossoms still clinging to it.

Beautifiers.

Ladies, you cannot make fair skin, rosy cheeks, and sparkling eyes, and the pretties of France, or beautifiers of the world, while in poor health, and nothing will give you such good health, strength, buoyant spirits and beauty as Hop Bitters. A trial is certain proof. See another column.

Cuticura**REMEDIES**

Have speedily and permanently cured Humors of the Skin and Sculp of Children and Infants afflicted since birth.

In severe cases of scalding, &c., a mild dose of the CUTICURA RESOLVENT, a perfectly safe yet powerful blood purifier, and the external use of CUTICURA, the great skin and mucous curative, should be the only soap applied to the disordered skin for cleansing purposes.

Humor on a Child

Since Birth Cured, after faithful Medical Treatment.

Messrs. WENKS & PORTER: Gentlemen, My little son, two years of age, has had a humor on one side of his face since he was born, and has been continually getting worse, and has spread over the entire side of the face, the child ear, and side of the head. It must have itched and irritated him a great deal, as he has been continually rubbing it, and no matter what was applied. I used many remedies by advice of friends and my physician, and nothing would cure him. CUTICURA, which immediately allayed the itching and inflammation, and entirely cured him.

With Worldwide Manufacturing Co.

Boston, April 15, 1879.

Note—Once cured, the skin may be rendered soft and pliable by using the Cuticura soap exclusively for toilet or nursery purposes.

CHILDREN AND INFANTS.

More Cures of Skin and Sculp Affections by the Cuticura Remedies.

Fred. Rohr, Esq., Carpet Store, Newark, N. J.: Dear Sirs—Please excuse me for troubling you, but I have a large box of CUTICURA. The small one that I received some time ago has been very efficacious, and has entirely removed the humor, as some people call it. I am noting it about.

Yours truly, THOMAS W. BUCKLEY,
Mason, Texas, Sept. 22, 1878.

Prickly Heat.

Incidental to the Texan Climate.

Mrs. WEEKS & PORTER: Gentlemen, My little daughter, eighteen months old, has a humor on her right side, and is bound to become very popular as soon as its virtues are known to the masses.

S. Weeks, Esq., Town Treasurer, St. Albans, Vt., says in a letter dated May 28, 1878: "I would be charmed to have your Cuticura, as it has entirely removed the humor on my baby's face and head. Could you have another box? I have nearly cleaned the face of sores, I have recommended to several, and Dr. Plante has ordered it for his patients."

M. M. Chick, Esq., Franklin St., Boston, says: "My little daughter, eighteen months old, has a humor on her right side, and is bound to become very popular as soon as its virtues are known to the masses."

W. H. Hayes, State Chemist.

CUTICURA is a most valuable external application, a healing oil cuts, burns, and abrasions of the skin, removes hair when destroyed by scalp diseases, removes dandruff, and keeps the scalp clean and the hair healthy. It is a powerful blood purifier, it is effective, and is ably assisted, in every case by the CUTICURA Soap, which is particularly good for infants, and children, clearing the skin and sets of infants and children. It is Toilet as well as Medicinal, and is the most fragrant and refreshing soap for nursery and bath, of any these prepared.

Parents know our experience that there is no external medicine equal to the Cuticura, infant, evidence of which may be found in the certificates of Dr. Hayes and Prof. Merrick accompanying each remedy.

The CUTICURA REMEDIES are prepared by W. H. Hayes & Son, Chemists, Washington, D. C., Washington, D. C., Boston, Mass., and are for sale by all Druggists. Price of Cuticura, small boxes, 50 cents; large boxes \$1.00; 25¢ per pound. Cuticura Soap, 25¢ per cake; by mail, 30 cents; 3 cakes, 25 cents.

COLLINS' ELECTRIC PLASTER

They destroy all tendency to Inflammation by drawing from the body, & thus preventing or curing Rheumatism, Neuralgia, and Sciatica. Work over the pit of the Stomach, they prevent Ague, & Rheumatism, & inflammation of the Liver and Kidneys, Bilious Colic, Dyspepsia, Indigestion, Cramps, and pains.

Medical.**TUTT'S PILLS****SYMPOTMS OF A TORPID LIVER.**

Loss of Appetite, Bowels constipated, Pain in the Heart, Indigestion, & Constriction in the back part. Pain under the shoulder blades, especially after eating, with a disposition to temper. Loss of weight, & general debility of mind. Irritability of temper. Loss of appetite, & general debility of mind. Indigestion, & constipation. Weakness, Drowsiness, & listlessness. Pattering at the Heart, Dots before the eyes, &c. Slight Headache generally over the right side. Headaches with fitful dreams, highly colored Urine. THESE WARNINGS ARE UNNEEDED. Serious Diseases will soon be developed.

TUTT'S PILLS are specially adapted to such cases, and close attention to a change of feeling can astonish the sufferer.

CONSTIPATION.

Only with regularity of the bowels can perfect health be secured, and the constipation is most recent, a single dose of TUTT'S PILLS will suffice, but if it has become habitual, and must be taken every night, gradually lessening from night to night, until a permanent movement is obtained, which will soon follow.

Dr. Guy Lewis, Walton, Ark., says:

"TUTT'S PILLS the best anti-bilious medicine ever invented."

Rev. F. H. Osborn, New York, says:

"I have had Dyspepsia, Weak Stomach and Nervousness. Never had any medicine to do me so much good as TUTT'S PILLS. They are as good as water."

Office 35 Murray Street, New York.
